## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-10, 17, 19, 20 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularity or in combination fails to anticipate or fairly suggest the limitations of the independent claim, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 1, 17, with the allowable features being; claim 1, the magnetic field generates a magnetic field and at least the first end of the frame moves within the magnetic field to cause the frame to rotate with the shaft running through the first axis; claim 17, the electromagnetic force is translated to rotational movement with the shaft running through the first axis. Therefore claims 1-10, 17, 19, 20 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
